Dreams Become
Reality ...

Our dreams shape who we are and who we will become.
Youth is a time for dreaming dreams and making plans for your life.
The dreams you choose to follow during school and college years
will influence forever the pattern of your life.

Listen to the advice of others,
but weigh their words carefully.
If they resonate with your soul,
if they feed your dreams,
take the words to heart and cherish them.
If the advice challenges you to look deep within yourself
at your reasons for wanting to follow a particular path,
take the challenge,
consider thoughtfully
and discover more about yourself.
If their words tear you down
or cause you to deny who you are
or what you value, even in subtle ways, reject them.
Surround yourself with people who build you up
or challenge you.
Avoid discussing your dreams with those who would try to steal them.
Remember,
you are the one who must walk the path you choose.

Pursue your dreams with diligence and discipline.
Prepare yourself to achieve your goals.
Work hard.
Make sacrifices.
Use your passion for your dream and all the creativity you can muster
when facing obstacles and set-backs.
If this is a dream God planted in your heart,
of a place where your abilities meet a need in the world,
you will find a way.

Be patient if the way doesn't open immediately.
Hold fast to your dream even if its achievement
gets side-tracked for years.
Put those years to good use.
Continue to prepare yourself for the fulfillment of your dream.
Pray about it and trust God.

A New World

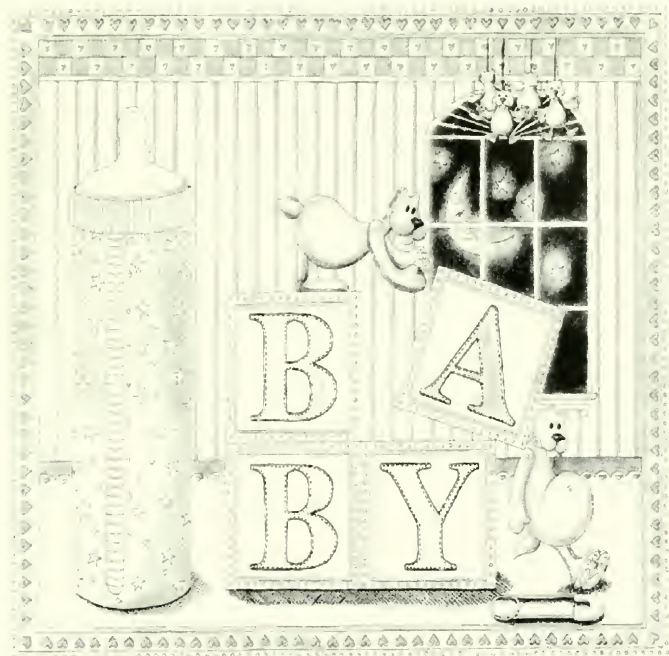

*Silent witness to the world we knew so well
Save for the time that the twin towers fell
A purpose of all in the wake of such things
Brings our time to a close, now new beginnings*

*We strive for peace and unity on earth
Never knowing such terrors neared their birth
September 11th time stood still in shock
In one fell swoop they reset the clock*

*We all stood in silence, voyeurism at its worst
Those sights of death caused our hearts to burst
Strangers in life, we knew them well
For they are our brothers who died and fell*

*Our brothers unite in terror and pain
Our hearts and minds never shall wane*

Always Create Your Own Dreams
And Live Life to the Fullest
By: Susan Polls Schutz

Dreams can come true if you take the time

to think about what you want in life.

Get to know yourself.

Find out who you are.

Choose your goals carefully.

Be honest with yourself.

Always believe in yourself.

Find many interests and pursue them.

Find out what is important to you.

Find out what you are good at.

Don't be afraid to make mistakes.

Work hard to achieve successes.

When things are not going right,

don't give up - just try harder.

Give yourself freedom to try out new things.

Laugh and have a good time.

Open yourself up to love.

Take part in the beauty of nature.

Be appreciative of all that you have.

Help those less fortunate than you.

Work towards peace in the world.

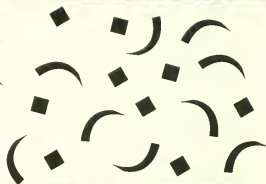

Live life to the fullest.

Create your own dreams and

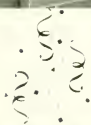

follow them until they are a reality.

Dear Members of the Class of 2002:

Let me begin by congratulating you! You have accomplished something which is done by only 1% of the population of the entire world...you have earned your college degree. This degree will open many doors for you, and will provide the base upon which we hope you will build a rewarding life, both personally and professionally. For many of you, the path to your degree has not been easy, but was crowded with school, work, and family responsibilities. You should feel a great sense of pride that you have met all those challenges, and I rejoice with you that you have reached such a meaningful milestone in your lives.

I am very aware that you are leaving college at a time of significant uncertainty and confusion. Since September 11th, the common mantra has been "Nothing will ever be the same again", and in most cases that is spoken with a longing for what was. But perhaps there is something more positive to be found in the common experience we have all had since 9/11. The media has flooded our consciousness with stories of acts of thoughtfulness and heroism and generosity, some large, many small, and we have seen how, at our best, we can rise above petty differences and biases, and work together toward a common goal. We should not lightly forget the lessons we learned in the days and months following the World Trade Center tragedy. We must remember that we are one people, irrespective of religion, race, gender, or any of the other factors we too often allow to separate us. We must remember that we are all children of the one God, who loves us all equally, who wishes only good and happiness for us all, and who trusts us to understand that, and to live in the light of that message.

As you leave St. Joseph's then, I urge you to take with you all the lessons you learned while a student, as well as the lessons we have all learned since September 11th. I urge you to live in the spirit of the College's motto...and live lives characterized by integrity, intellectual and spiritual values, social responsibility and service. I mentioned above that you are members of a very elite group...the 1% of the world's population who are privileged enough to go to college. That places a great responsibility on you, the charge to use your gifts and talents for the good of all, to work to open up doors of possibility for the 99% who are not so blessed or fortunate. If you do that, your life will have deeper meaning, and you will be enriched beyond your imagining. And, in a very good way, "Nothing will ever be the same again!"

I hope and pray that God will bless you, today and every day of your lives.

Sincerely,

Sister Elizabeth A. Hill, CSJ

Academic Dean

To the Graduates of the Class of 2002:

Let me begin by congratulating each one of you on achieving your Bachelor's degree. This represents a significant milestone in your life, and you have a right to be proud. We hope that in your years at St. Joseph's, you have earned an education as well as a degree, and that you leave with expanded knowledge, well-developed skills, and an attitude of confidence that you are ready to face the future.

Because we live in a time of rapid change, I hope you have built strong foundations of knowledge, intellectual skills, and values, which will allow you to grow and adapt to whatever you face in the future. One of our goals has been teaching you to become lifelong learners. We measure our success by the degree to which you have become interested in ideas, able to investigate and problem solve with a degree of independence, and skilled in expressing your thoughts. We hope you will continue to read widely, to think clearly, and to live with integrity and compassion.

Most graduates tell us what they remember and value most in their education here is the personal relationships they developed with faculty and other students. We hope you will maintain some of these connections to faculty and friends in your future. Having experienced the value of a supportive community, we hope you will contribute to building strong relationships in your families, graduate schools, professions, and in the local and world community. You have many ideals and gifts to share with the world.

On behalf of the faculty, let me say we are glad to have been a part of your education. We take great joy in your graduation, and we look forward with interest to hearing from you as you move to the next stage of your life. We will always consider you a part of SJC.

With love and prayers for God's special blessings on all of you,

To My Angels

Friends are there when your world's upside down.
They are the ones who turn your life around.

It could be by just being there,

Or by helping you learn to play fair.

They are the ones who stand by your side.

They are the ones to fill you with pride.

You are my closest friends.

I pray that we will continue to be friends 'till the end.

You are all filled with special gifts from God on high.

Do not be afraid to use those gifts to change people's lives.

You can do it even though you may be scared.

I promise, it's easy ... just give it a try.

Angels are sent from heaven.

I am so glad God sent me, you seven.

We've been through good times and bad,

And even times when we were mad or just plain sad.

But no matter what we leaned on each other

And totally stuck by one another.

Thank you for the good times we've had.

Sometimes I thought you were nuts — well, just a tad!

So I will keep our special memories in my heart forever.

I hope you will too.

I will never forget them, no way! Never ever!

Good luck in the future.

God Bless You!

♥ Rosie

To My Precious Little Sister,

Sometimes I step back and look at you I notice who you are now and I ponder where life will take you Yet at the same time, I can't help but remember the different "shoes" that you had to fill in our life. As you walk across that stage, I won't just see Denise Marie "the Graduate" I'll see Denise Marie.

Roommate — It is a miracle that we both turned out normal.

Fashion Consultant — I would be a ragged old man in plaid without you.

Coach — Your passion is only matched by the gift you possess. I need only look at the smiles on your girls to know how good of a job you do.

Sister — It was Us vs. Them and They didn't stand a chance!

Friend — "At the end, if you have one true friend, you are lucky." Well, we didn't have to look past our house. Person — You are the most loyal, hardworking, ambitious human being I know. When I reach adversity, I think "What would Denise do?" I know that you will accomplish anything that you set your mind to and I feel sorry for anyone or anything that gets in your way!

Sis, Congratulations on your Graduation and I Love You with All My Heart!

Love,

Joseph

Dear Jaime Lee,

Look at you, all graduating and stuff! And from St. Joe's no less! Whod've thunk it? Six years later, who would have realized how many memories St. Joseph's College would give us? From the looks of things, it very well may be the place where even more of our memories are forged, for the better or for worse. And you didn't want to stay! Shame on you! After all ... I told you so!

"There's only now, there's only here,
Give into love or live in fear.
No other path, no other way ...
No day but today!"

Dearest Jaime Lee:

"Birdie, birdie where is your nest?
Birdie, birdie where is your nest?
Birdie, birdie where is your nest?
"In the place that I love the best!"

Remember when you sang that song at your pre-school graduation? That was exactly 20 years ago. It seems like only yesterday. The pride and love are immeasurable. The happiness and joy are overwhelming. You have found your "nest."

May God Bless your journey and may the Guardian Angels be with you every step of the way.

Love always,

"I hope you come to find, that which gives life a deep meaning for you.

Something worth living for; maybe even worth dying for.

Something that energizes you, enthuses you, and enables you to keep moving ahead. I can't tell you what that might be. That is for you to find, to choose, to love. All I can do is encourage you to start looking, and support you in your search."

Sometimes people come into your life and you know right away that they were meant to be there, to serve some sort of purpose. To teach a lesson, like you will do for the many students that will come into your classroom, as well as helping them figure out who they want to become, like you are doing for me. Congratulations. I am very proud of you. I love you more than you know, and I'm honored to be your fiancé.

Dear Peter Jr.

From the moment that you were born Peter Anthony Cavicchio Jr., you have enriched our lives and brought us joy. You have always made us proud of you, your accomplishments, and the exemplary man that you have become. Dear Roxane,

It seems like yesterday that daddy and I were walking you down the block to your first day at pre-k and now we're going to watch you walk down the aisle at your college graduation. We don't know where the years of Barbie dolls, baseball and dancing school have gone. When boyssssss, vacation and staying out late took over, all we know is that we have enjoyed every moment and we will cherish every memory. We are so very, very proud of you and all you have accomplished; if everyone in the world could wish for the perfect daughter they would all wish for you! Daddy and I both love you and so does your brother (even though he gets to you sometimes). We want you to know that we will always be there for you, may your future as a teacher hold nothing but the best for you.

CONGRATULATIONS!!!!

My Dearest Cherylin,

My love, I'm not going to take up space reciting cliché's like "We've been through a lot of ups and downs." You know, you were there. I'm not going to tell you how proud of you I am or how much I love you either.

When you step into my congratulatory embrace as a graduate, you will know the pride I feel by the warmth of my hold. And likewise, I am sure the past couple of years have revealed my adoration and affections for you.

So, instead of wasting space by saying these things, I'd much rather waste it telling you how I am not going to do just that. Because I am a silly, silly person, and that's why you love me. With all my love, darling, congrats.

Your one and only.

Paul

Jennifer,

You always said you wanted to be a teacher because you love kids. College was not easy, but you put your heart into it, and that is why you are going to be the best teacher ever. We are all very proud of you.

The Road Not Taken

By Robert Frost

*Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;
Then took the other, just as fair,
And having perhaps the better claim
Because it was grassy and wanted wear;
Though as for that the passing there
Had worn them really about the same,
And both that morning equally lay
In leaves no step had trodden black.
Oh, I kept the first for another day:
Yet knowing how way leads on to way,
I doubted if I should ever come back.
I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I —
I took the one less traveled by,
And that has made all the difference.*
